EDUCATION

The Islamia University of Bahawalpur
Bachelor of Science in Computer Systems Engineering

Bahawalpur, Pakistan
3.72/4.00 CGPA | Graduated 2025

EXPERIENCE

Frontend Developer

January 2025 – Present

Potlock / Cooked.business

Remote

- Building reply.cash, a crypto gifting platform enabling seamless USDC transfers through social networks serving production users
- Collaborate with cross-functional team including backend developers and designers using Git workflows and code review processes
- Develop Web3 payment interfaces integrating wallet connections and blockchain transactions with social media authentication flows

Frontend Developer

January 2023 – Present

Freelance

Remote

- Architected and developed production web applications across Web3 and SaaS domains using React, Next.js, and TypeScript
- Led complete frontend development for multi-application platforms including dual-app Web3 campaign system serving 1000+ active users
- Built decentralized application interfaces with Web3 wallet integration and blockchain interactions for NEAR Protocol ecosystem

PROJECTS

GetCULTD - Web3 Campaign Platform | *React, Next.js, TypeScript, TailwindCSS, Web3.js* 2024 – Present

- Architected complete frontend for dual-application Web3 campaign platform serving 1000+ active users
- Built campaign management dashboard (app.getcultd.com) for brands to launch campaigns and manage KOL relationships
- Developed user-facing dApp (dapp.getcultd.com) for campaign participation, social verification, and blockchain-based rewards
- Integrated Web3 wallet authentication and Twitter/X APIs for automated campaign verification and reward distribution

Milksage - Dairy Farm Management SaaS | *React, Next.js, TypeScript, Convex DB, Clerk Auth* 2025

- Developed full-stack SaaS platform for dairy farm operations with cattle inventory, health records, and breeding management
- Built milk production analytics with yield forecasting, financial tracking, and automated payout calculations
- Implemented real-time data synchronization using Convex DB with role-based access control for multi-user workflows

NEAR DevHub Portal - Frontend Modernization | *React, Next.js, NEAR Protocol, BOS Framework* 2023 – 2024

- Led complete frontend modernization of official NEAR DevHub Portal serving the NEAR developer community
- Redesigned component architecture and implemented blockchain features including smart contract interactions and wallet integration

NEAR Catalog - Project Discovery Platform | *React, Next.js, TypeScript* 2024

- Developed project discovery platform (nearcatalog.xyz) showcasing 350+ NEAR ecosystem applications with advanced filtering and search

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML/CSS, SQL

Frontend: React, Next.js, TailwindCSS, TanStack Query, Zustand, Redux, shadcn/ui

Web3: NEAR Protocol, Web3.js, Ethers.js, Wallet Integration, Smart Contract Interaction

Backend: Node.js, MongoDB, PostgreSQL, Convex DB, RESTful APIs

Tools: Git, Docker, GitHub Actions, Vercel, Digital Ocean, Figma, Jest, Playwright
